

## Etniq Client Services

In addition to the true-to-tint personal blends (custom colors section), Etniq Minerals will teach you how to create the looks you want with all natural mineral makeup. You and your friends can get glamorous playing with colors and developing your own personal style by experimenting with the makeup in the comfort of your own home or favorite salon.

**I offer you quality  
I offer you shiek.  
I offer you custom colors.  
I offer you Etniq!**

## Etniq Offering: Minerals

Many corporate cosmetic companies mass produce products made of toxic, synthetic dyes and chemicals, which irritate the skin and don't hold up to a day's wear. These products consist of talc, bismuth oxychloride, parabens, carmine, synthetic fragrance, methylparaben, propylparaben, and many more. These ingredients only clog pores and leave skin more in need of makeup coverage with long-term use. Customers have to buy more often because of a short self life due to vulnerability to bacteria, mold, and fungus.

Etniq Mineral Cosmetics is the way for you to stay beautiful while using products that are cruelty-free and all-natural because they are composed of minerals. Etniq is affordable and adaptable for every pocket, complexion, and personal style.

**“Etniq Minerals are so light-weight that you may forget you are wearing any makeup at all until someone compliments you on how smooth and fresh your skin looks.”**

--Longtime Etniq Customer

## Etniq Offering: Purity

Etniq Minerals are made from naturally occurring colors that are finely crushed into minute particles and blended to form a range of beautiful shades. Etniq Mineral Cosmetics include

minerals/ingredients that provide protection against UVA and UVB rays, assist in removing sebum, heal acne scars, lessen the effects of aging, and absorb oil without drying out the skin.

## Etniq Offering: Custom Colors

Never can find just the right shade of foundation or eye shadow that pops just right? Looking for a nail shade that major companies don't make? Personalize your makeup palette with custom blends by Etniq Minerals.

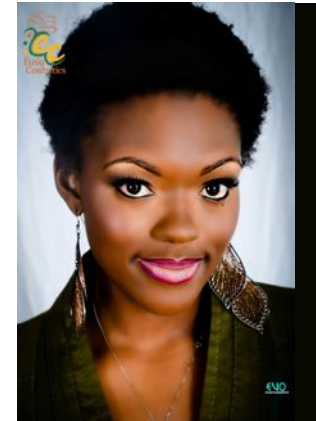

## Etniq Offering: Water Resistant

For more active lifestyles, Etniq Minerals are water resistant for dancing, swimming, or lunchtime aerobics. Just pat dry gently, and if necessary, rebuffer!

## Etniq Offering: Skin Security

The nature of minerals allow Etniq products to even out skin tone, whether you have acne, age spots, rosacea, or spider veins. By adhering to the skin, Etniq Minerals give you perfect coverage throughout the day and night.

If oily skin is an issue, you can benefit from using Etniq Minerals because the makeup is non-acnegenic and does not dry out the skin. Etniq can be used on sensitive skin after plastic/facial surgery, dermabrasion, or skin resurfacing. Because Etniq is so gentle on all skins, it is recommended by many people across the world.
